In response to a letter addressed to him by Secretary Schurz, inquiring what amount of funds can be made available monthly for the payment of arrears due upon pensions which were allowed prior to January 25, 1879, the secretary of the treasury states that including the amount already paid \$2,500,000 will be available prior to July 1, and \$2,000,000 monthly thereafter. At this rate nearly the whole of the next fiscal year will be required to complete the payment of these arrears. In view of this condition of affairs the commissioner of pensions issued to-day a letter to applicants for arrears, which says owing to the limited amount of money available each month for the payment of arrears due, those whose pensions were allowed prior to January 3d, 1879. Comparatively a small number of cases only can be adjusted monthly, and therefore some delay may occur in the settlement of your claim, the right to arrears is fixed by the act of January 25, and payment of arrears due upon pensions which arrears is fixed by the act of January 25, as not by date of filing application therefor, and therefore claims will be settled without regard to date of receipt in this office, but in such order as to distribute payments equitably among the several pension agencies as nearly as can

The record of court martial in case of Gen. W. S. Stanley on the charges of conduct unbecoming a gentleman and prejudicial to service in charging Gen. William B. Hagan with cowardice, has been considered by the Judge Advocate General of the Army and it has been the purpose of making up and presenting more specific findings in regard to the conduct of Gen. Stanley. The private opinion of all the war department officers seems to be that Stanley has sustained his charges against Hazen at least to a very great extent, and that he has in no way dishonored himself in bringhe has in no way dishonored himself in brin ing them against Gen. Hazen, but it is co sidered that the interests of the service require that Stanley should be specifically admonished against bringing charges, writing letters and adopting the course which he has taken during the past few years in order to expose and humiliate Gen. Hazen.

O'LEARY'S TOURNAMENT.

The Full Number of Entries Made, Including O'Leary and Crossland.

Спісадо, May 18.—The entries for O'Leary's walking tournament have closed, the limited number of twenty-two having paid the sum of \$50 as their entrance fee to the stake holder. Of this number seven at least are well known heel-and-toe walkers, Peter Crossland of England and Daniel O'Leary of Chicago being considered as the finest specimens of this class of pedestrianism in the world. Until Cross-land's name appeared in the list of competitors it was O'Leary's intention not to enter, but the latter believing that none of our local tramps would have any show of winning the trophy with such a plucky rival as the British repre-sentative against them, yielded to the wishes and solicitations of his friends by entering in the match for an effort to keep the belt on this side of the Atlantic. If O'Leary proves equal to the emergency he will be obliged to place on record one of the best seventy-five hour feats ever accomplished, as Crossland has great con ence in his ability to cover at least 300 mile

THE LATE JUDGE PACKER.

onsin, Milwaukee, October 1st

24th, Peck.

How a Poor Connecticut Lad Became One The GLOBE yesterday announced the death of Judge Asa Packer, of Pennsylvania, at his home in Mauch Chunk. His career is somewhat remarkable. He was born in Mystic, Conn., a little village lying midway From there, when about 16 years of age, he journeyed on foot, with all his earthly pos sessions done up in a knapsack on his back prenticed himself to his uncle, a carpenter in two or three years he had mastered hi trade, and came to New York to work at it: but the city was not to his taste, and he returned to Susquehanna county. At the age of 23 he married Sarah M. Blakelee, the pretty daughter of a farmer, living in the neighborhood. For four years the pair earned only a scanty subsistence, young Packer working a small farm and doing odd jobs at his trade. At the time of the opening of the Lehigh canal, in the spring of 1833, he became a canal boat driver. With his earnings he gradually was enabled to buy interests of his own in a number of boats, and retaining these, he gave up driving, and opened a store and a boat yard. Afterward

ne contracted for the building of locks in the upper Lehigh, and soon his fame as a contractor became great throughout the region. In 1838 he built boats at Pottsville for the transportation of coal to New York direct. In 1840, leaving his boat building business to his brother, Mr. Packer removed to Mauch Chunk, and for many years en-gaged in the shipment of coal. In 1852 he gaged in the shipment of coal. In 1852 he alone began the building of the Lehigh Valley railroad. In 1855, when it was com-pleted, he was all but ruined, but, aided by Commodore Stockton, he survived his temporary embarrassments, and his road re-warded him to that extent that for many years he has been accounted the richest man in Pennsylvania. Mr. Packer was twice lected to Congress, and served under the administration of Mr. Pierce. He built for himself a beautiful residence at Mauch

Chunk, which was his home. Remains of Asa Packer. MAUCH CHUNK, May 18 .- The body of Asa Packer arrived at 3 P. M., accompanied by the

SAD POISONING CASE.

Little Son of Hon. E. G. Rogers Eats Strychnine Pills and Dies in Agony.

A sad case of accidental poisoning occurred within a few miles of this city vesterday afternoon, resulting in the sudden death of the two vear-old son of Mr. E. G. Rogers, prominently known in this city as the member from Dakota county of the last session of the legislature. A few minutes before 3 o'clock the child, Luther, succeeded in obtaining a box of pills, containing the 1-31 part of a grain of strychnine, which were taken from a low shelf without attract

A short time afterwards the child was observed to be playing with the pills, when they were immediately taken from him, too late, however, as subsequent developments proved, to prevent the most fatal and lamentable results. Fears were at once entertained that some of the pills had been eaten which were shortly afterwards verified by the conduct of the child, who manifested

symptoms of convulsions.

With all possible speed, Mr. Rogers drove to this city, a distance of seven miles from his residence, for the purpose of procuring expert medical attendance. The nature of the case was disclosed to Dr. Jay Owens, who accompanied Mr. Rogers home, too late, however, to render any assistance, as the child died in convulsions, a few minutes before their arrival. The exact number of said to have contained from twenty to thirty pills, which were originally procured for the grandfather of the child, two of said, are sufficient to cause th death of an infant.

Mr. Rogers is well known in and around St. Paul, and the family will have the sympathy of a large circle of friends in their unfortunate affliction.

The Base Ball League.

The third week of play by the league clubs closed with Chicago in the lead, having lost only one game in the nine played. that to Providence on Tuesday, while Bos ion and Cincinnati are tied for second place, each having lost two games. The rec-ord of games won and lost by the league clubs are as follows:

Chicago—Won 8, lost 1. Boston—Won 7, lest 2. Cincinnati—Won 7, lost 2. Buffalo—Wen 5, iost 4. Providence—Won 4, lost 5. Cleveland—Won 1, lost 8. Troy—Won 1, lost 8.

This week's play will be especially interesting, as the four old league clubs come together, the Chicagos and Bostons at Chicago, and the Cincinnatis and Providences at Cincinnati. If Chicago shall be able to repeat last week's score of two games won to one lost, and Providence should wrest a game from Cincinnati as it did from the Chicagos, the Chicagos will have secured a strong lead for the penant. two prominent owners, one driver and suspended several other well known drivers for crookedness in what is known as the Edwin Forrest race at Utica, N. Y., in July last. The facts in the case in brief are these: Edwin Forrest, Edward, Woodford Mambrino, Trampoline, Deck Wright, Dick Moore, and other horses were entered in the 2:24 class through the grand central circuit. In the race at Cleveland it was made evident that none of the others had any business in a race with Edwin Forrest, and he accordingly was a strong favorite in the pools. At Utica, Forrest lost the race after five heats. The first he won easily in 2:18. In the second he was distanced. It was claimed that there was a combination in the interest of the pool-box to defeat him, and the heat was declared no heat; Glidden was taken from the sulky behind Edwin Forrest as a party to the combination, and Morrill Higbie was put up in his place. The race went on and Edward won three straight heats. A SERIOUS LOSS. Mr. H. A. Schutte of this city, has met with a serious loss in the death of his fine young

The writer is convinced from his own personal observation, that other races than the Edwin Forrest race at Utica, in the great central circuit last season, were thrown through the same influences for the pool box betters. The manipulators of the swindle were a rapacious gang, and they played their hands to the uttermost limit, and generally, we have good reason to believe, to win. That the same influences weuld have been prominent, in fact the controlling power in the betting at the important meetings this season, had the board failed to make an example of some of the parties to the combination, there can be no doubt. DR. TAYLOR'S TROUBLE.

Reflective Sunday in the Ramsey County Jail-- A Suspension of Judgment Asked Until After the Hearing.

A visit to the county jail was made by a GLOBE reporter last night, for the purpose of holding a conversation with Dr. Taylor, an account of whose arrest, on the charge of taking improper liberties with a young girl named Mary Clous, appeared in yesterday's issue of the GLOBE. The doctor was found in a reflective mood, enjoying the solace of his pipe, a cigar being proffered as a substitute, which was accepted in the most cour-

teous manner imaginable.

A quiet chat followed, during which the prisoner reiterated his remarks of innocence, characterizing the charge as an infamous fabrication manufactured entirely from whole cloth. For the first time since his arrest, the doctor's face bore a troubled expression, when his practice was alluded to, and when asked if he had anything to say, he replied that he would regard it as an especial favor, if the GLOBE would state, as ming from him, that he hoped his patients would withhold judgment conerning the matter until after the case had

been disposed of. When asked if he had employed counsel, he replied that he intended so doing, to-day, his first impression being, at the time of his arrest on Saturday, that he could establish his innocence without legal assistance, since when he has changed his mind. Among other things alluded to by the doctor will certain incidents alleged in connection with the previous history of Miss Clous, which, if proven, will materially damage the case of the prosecution.
